

# Export All Documents

It is now possible to export *all* of the documents on a particular project/permit/license/violation at once. The export will preserve the file names as shown in LAMA as well as the folder structure.

The **Export** button can be found at the bottom of the project/permit/license/violation form when you have the **Documents** tab selected:

Select the folder on your computer where you would like the documents to be saved:

A folder with a name based on your project/permit/license/violation will be created, and all LAMA folders that contain documents will be exported, with the appropriate documents inside:
